## Career Objective:

Highly motivated recent graduate with a solid foundation in Python full-stack development seeking a Full Stack Developer position to apply theoretical knowledge in a real-world setting. Eager to learn from experienced developers and contribute to the success of a team while expanding my skillset in Python frameworks and libraries.

## Education:

S.no	Qualification	Institute	CGPA	Year
1	B.tech	ABR College of Engineering and Technology,Kanigiri	7.5	2024
2	Diploma	DA Govt Polytechnic,Ongole	80%	2021
3	SSC	Adrsha High school,Ganlapenta	10	2018

## Skills:

- Python Developer
- HTML
- CSS
- JS

## Project:

### Content Aggregator

This is a tool that gathers information such as articles, social media posts, videos, images and so on. Then it displays all that information under one page. This means that users don't have to manually search each website for what they are looking for.

Creating one is another good way to showcase how you can use your Python expertise to create a useful tool. Content aggregators can be used for many purposes,

but they essentially search large swaths of the internet to find specific pieces of information.

You could develop a general content aggregator or a more specialized one. For example, you might create a weather aggregator that pulls weather data from several of the top sources in your region to present a comprehensive weather report.

Working on a project like this you should be comfortable with concepts like:

- **Python Basics**
  - **How to make use of virtual environments**
  - **Django fundamentals**
  - **Basics of HTML, CSS and JS**
- 

## Internship:

### Web Development Intern, Digital Win Technologies

- Developed and implemented responsive design elements for a new e-commerce platform, resulting in a 15% increase in mobile conversions
- Collaborated with senior developers to design and implement a user-friendly registration system for a new client website.
- Utilized HTML, CSS, and JavaScript to build responsive web pages that optimized for desktop and mobile devices.
- Gained experience with Git version control for code management and collaboration.

### Technical Skills Used:

- Programming languages (HTML, CSS, JavaScript.)
  - Frameworks or libraries (React, Angular.)
  - Version control systems (Git)
- 

## Personal Details:

- **Strengths:** Decision Making Skills, Leadership, Time management
- **Hobbies:** Browsing, Coding, etc.
- **languages Known:** English, Hindi, Telugu
- **Address:** D.no:5-87, Mudhigubba(M), Ananthapur(D), Andhara Pradesh
